About the Process:

1. Check-in in the Lobby to complete the Audition Questionnaire, submit payment and receive your audition number
2. Dancers will be called in one at a time to interview with some of our teachers and alumni
3. Once the Interview is complete, dancers will change into their dancewear, and return to studio one to start stretching
4. Dancers will be evaluated in Acro, Tap, Ballet and Jazz/Technique (not in that particular order)
5. Acro evaluation will consist of students demonstrating their flexibility, strength and current tricks – no new skills will be learned, and the only skills displayed should be able to be completed without a spotter
6. Tap evaluation will consist of dancers learning a short combo consisting of basic tap skills, and then demonstrating that combo in small groups for our evaluators
7. Ballet evaluation will consist of dancers learning a ballet combo and then performing the combo in small groups for our evaluators where their ballet technique will be reviewed
8. Jazz/Technique evaluation will consist of younger dancers learning a short jazz combo and then demonstrating that combo in small groups for the evaluators. Older dancers will all demonstrate their Turns and Leaps techniques and skills in addition to the jazz combo.
9. Once your dancer completes all of their evaluations, they are free to leave.
10. All dancers will be notified of their results by 7/20/2024.
11. We will have a representative in the lobby throughout the entire audition process to answer any questions you may have.
